

"IMPROVING EFFICIENCY IN NATURAL GAS PROCESSING - WELLHEAD TO MARKET"

Papers are invited for the 27th Technical Conference of the Gas Processors Association GCC Chapter. The Conference will be held on 12th - 14th March 2019 in the State of Kuwait and will cover both business and technical aspects of Gas Processing. Papers relevant to the following topics are invited:

- » Gas separation, conditioning, storage and transportation
- » Upstream Gas separation and transportation techniques
- » Gas dehydration and impurities removal
- » Gas Processing applications and technologies
- » Gas Sweetening and Sulfur Recovery
- » NGL Recovery and NGL Fractionation
- » Gas compression and Refrigeration
- » Cryogenic processes and storage of gas streams
- » LPG storage and shipping applications
- » GTL (Gas to Liquids) and petrochemical integration
- » LNG Liquefaction, Transportation and regasification
- » LNG FSRU (Floating Ship Regasification Unit) technologies
- » Operational challenges in Gas Processing
- » Gas Processes Enhancement and Optimization
- » Energy conservation and management in the gas industry
- » Inspection and corrosion techniques/ best practices
- » Plant reliability and integrity
- » Maintenance and turnaround management in the gas industry
- » Analytical techniques in gas processing
- » Health, Safety and Environment in the gas industry
- » Flare Gas Recovery

- » Interested individuals are requested to provide their abstracts (a title and a 200-250 word description) with presenter's biography by 30th September 2018
- » Please forward all your documentations electronically
- » Paper selections will be made by 30th October 2018
- » Final manuscripts will be due by 15th January 2019

The presenter of the best paper at this Conference will receive a GPA-GCC Chapter recognition award. Details for the presentations will be given to the speakers after the paper selections are made.

Abstract Submission
